## Pineapple Nematodes of Southern Nigeria and Their Management

By Fisayo Daramola

LAP Lambert Academic Publishing. Paperback. Condition: New. 132 pages. Dimensions: 8.7in. x 5.9in. x 0.3in. Nematode pests of pineapple have not been well studied in Nigeria compared to other countries worldwide. In this study, the geographical distribution of nematodes associated with pineapple in Southern Nigeria and their management with organic manure and chemical pesticide was investigated. Pineapple fruits from the chemical-treated plots were also analyzed for pesticide residue in the fruits using Gas Chromatography-Mass Spectrometry (GC-MS). The study indicated a widespread distribution of plant-parasitic nematodes of pineapple in Southern Nigeria. Carbofuran (pesticide) and poultry manure effectively suppressed the population of plant-parasitic nematodes in naturally-infested pineapple plots and promoted crop yield. Carbofuran and its metabolites were not detected in the pineapple fruits that were tested for pesticide residue, suggesting that Carbofuran is not likely to constitute dietary risks for consumers of fruits from treated plots. This study is of importance to resource-poor farmers for nematode control, to the fruit processing and manufacturing industries as well as regulatory agencies for food safety and environmental protection. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.

### Reviews

*This book is definitely worth acquiring. I have gone through and so I am certain that I will likely to read through again again in the future. It's been printed in an exceptionally basic way in fact it is only after I finished reading this publication in which actually altered me, change the way in my opinion.*

-- Andres Bashirian

*Comprehensive guide for publication fanatics. This really is for all who state there had not been a well worth reading through. I discovered this ebook from my dad and I encouraged this book to find out.*
